

Practical Responses to Climate Change National Conference 2010

29 September – 1 October 2010
Hilton on the Park, Melbourne, Australia

Meeting the Challenges from Catchments to Coast

Invitation and Call for Abstracts

On behalf of the organising committee I would like to invite you to the inaugural Practical Responses to Climate Change National Conference, taking place at the Hilton on the Park, Melbourne from Wednesday 29 September to Friday 1 October 2010.

The Conference **Practical Responses to Climate Change** will provide a forum for presenting comprehensive responses to climate change within the water sector with particular emphasis on recent climate change science and impact research, vulnerability assessment techniques and adaptation strategies. It will be an excellent opportunity for engineers, scientists, planners and academics to present and debate current and future practices for adapting to changes in our environment from the catchment to the coast.

The Conference **Program** will focus on four streams explored in detail by a body of reputable and informative speakers:

- Coasts & Estuaries
- Water Resources
- Catchments, Floodplains & Waterways
- Planning & Policy

We encourage you to submit abstracts on a range of topics as listed below:

- Impact of Climate Change on Coasts and Estuaries
- Coastal Hazards and Management responses to Climate Change
- Impacts of climate change on water resources
- Water resources management in response to climate change
- Impact of Climate Change on Catchments, Floodplains and Waterways
- Catchment, Floodplain, and Waterway Challenges and Management responses to Climate Change
- Climate change risk assessment in a policy and planning framework
- Planning and Policy Responses to Climate Change

Abstract submission closes on Friday, 9 April 2010

For further information on the Conference Program and a breakdown of each of the above topic's sub categories please visit the **Program** page of the Conference website www.climatechange2010.org

Dr Mark Jempson
